The terms "brand" and "logo" are often used interchangeably. Though a logo can be the symbol of a business, it is not the entirety of a brand. In fact, creating a logo is just one small step toward developing a strong brand identity. With millions, if not billions, of businesses trying to make a name for themselves, having a strong brand has become crucial for businesses to differentiate themselves from their competitors. We have our registered brand name – Hivision (Trade Mark NO: 23686) specialized in manufacturing and import of Surveillance Products, Access Control, Accessories, Cables, Connectors, CCTV bracket, adaptors etc.
